

Community Chiropractic

Congratulations on taking the first step toward better health and quality of life by exploring Network Spinal Analysis. Network Care will give you the opportunity to take responsibility for your healing, and help you advance your well-being by connecting you to your body's internal healing wisdom.

Our mission is to help individuals obtain and maintain optimum health and wellness, by providing care which promotes the innate healing powers of the body.

The purpose of Network Spinal Analysis is to reduce abnormal spinal tension which results in health problems and decreased quality of life. It can also be used to optimize stress handling and performance in people with no current health problems. Research conducted in Network Care shows that as the body begins to better handle stress, there are many physical, mental, and emotional benefits which result.

Your initial visit to Community Chiropractic will include a consultation, a Spinal Examination (including a digital posture analysis) and your first Network Spinal Analysis entrainment (treatment). A second visit will be arranged to review the results of your exam and discuss recommendations for care.

Please use the following checklist in preparing for your initial visit:

- ☎ Call our office at (860) 667-4722 to schedule your initial appointment
- ↑ Read, sign, and date the **Statement of Philosophy and Clinical Objectives**
- ↑ Read, sign, and date the **Hippa Privacy Consent Form**
- ↑ Thoroughly complete the **Personal History Questionnaire**
- ↑ Plan to spend 60 - 70 minutes in the office on your first visit
- ↑ Please be prompt for your appointment

I look forward to meeting you and discussing your goals for a better life!

Be well,

Dr. Jens Korgaard
